

Laura Fuentes is a Biotechnologist (2015, University of Lleida, Spain). She currently works as a Regulatory Officer at DDR (Drug Development and Regulation - www.ddrmedic.com), located in Barcelona, Amsterdam and London.

Following her degree, she did an MRes in Clinical Research and Translational Medicine at Imperial College London, UK. Thereafter she completed a PhD in neuroinflammation and autoimmunity at Imperial College London, UK, during which she also got involved in teaching and mentoring activities. Previously, she had participated as well in various analytical, regulatory and field support scientific activities.

Trained in immunology, with research experience in complex diseases, her main area of expertise is the preclinical development and scientific advice. She is constantly expanding her knowledge in regulatory affairs within drug and medical device development, to bring innovative therapies to patients faster.
